**I think shopping online is very convenient.**

**First, it saves time. People can look at and buy things from their homes without going to stores. This is very good for busy people because they can shop anytime, day or night. It is also good for an environment because we can reduce fuels by not using transportation such as cars and buses.**

**Second, online shopping usually has better prices and more choices. Many websites have discounts that stores do not have, and people can easily compare prices from different sellers. Also, online stores often have more items than local shops, so it is easier to find what you need.**

質問 2025年度入試 過去問

Would you rather live in a big city or a small town? Why?

Tell us the reasons for your answer. You should speak within one minute.

First, please provide us with your examinee number and name.

回答例

Hello, my name is... My examinee number is ...

【主張】 I would rather live in a big city.

【理由・体験談】 I grew up in a small town, and while it was quiet and peaceful, there wasn't much to do. The town was very small, with only a few places to go, like a park or a small library. After a while, I felt like I knew everything in the area, and life often became boring. There were not many events, and it was difficult to find something exciting or new to try.

In a big city, life is completely different. There are always things to do and see. For example, when I first moved to the city, I was amazed by the many restaurants, shops, and interesting places to explore. I could also visit museums, watch concerts, and enjoy different activities almost every day. Cities also have people from many different countries, so I can meet new friends and learn about other cultures. The busy and exciting life of the city keeps me interested, motivated, and happy.

【再主張】 That's why I would choose to live in a big city. Thank you for listening!
